

The New eFax Messenger 2.0

Makes Desktop Faxing Easier Than Ever

The new eFax Messenger 2.0 gives you greater control over your online faxing. Optimized for use with Windows 10, eFax Messenger 2.0 provides a streamlined, easy-to-use desktop app for sending, receiving and viewing faxes from a single, unified interface.

With eFax Messenger 2.0, you can easily create, edit, send and store faxes, complete with an integrated address book, text notes and electronic signatures. Yet another reason eFax Corporate® is the world's most popular business cloud fax service.

Improved User Experience

- New user interface mirrors the Windows 10 look and feel
- Streamlined usability
- Unified interface to send and manage faxes

Enhanced Features

- Create and send faxes without launching a separate window
- Fax Ribbon enables you to compose all fax details in one place
- New login options with fax number or email address
- Fax Activity in one central location with keyword search options
- Enhanced Address Book allows you to easily view Recents and Favorites

More Performance. More Productivity.

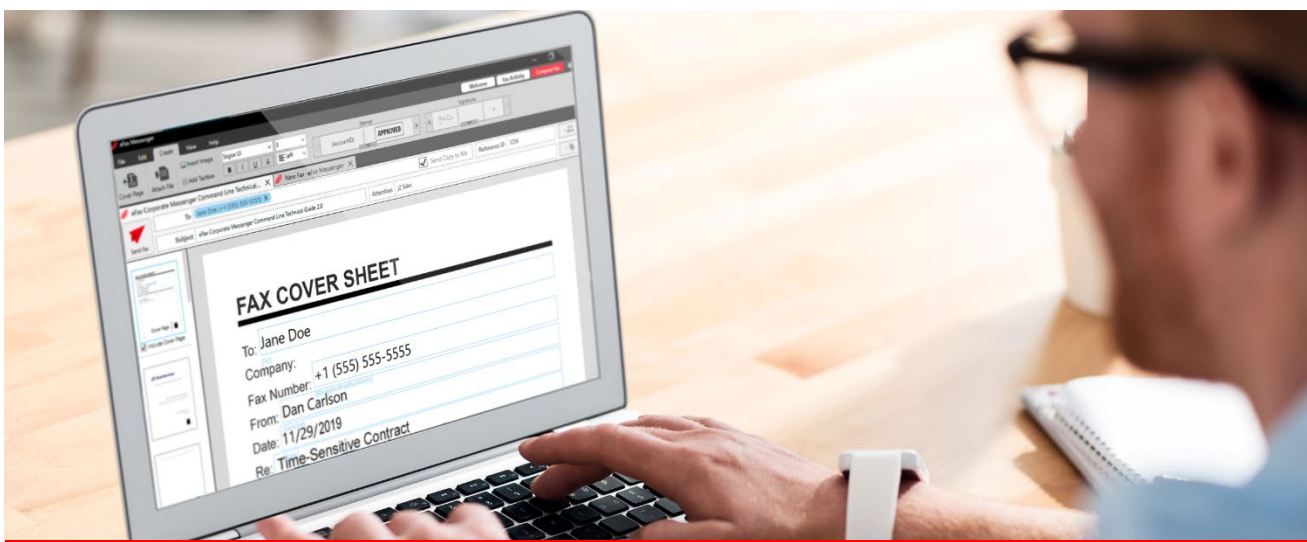

eFax Messenger 2.0 has advanced editing and faxing features to help you get the most out of your eFax account, using your laptop or desktop computer.

- Take advantage of features such as fax sending, fax forwarding, custom cover pages, electronic signatures, fax markup tools, PDF creation and fax-image editing tools for annotation.
- Print directly from application such as Word, Excel, PowerPoint and many more for efficiency and convenience.
- Integrate easily with your existing email client. Access important resources such as the Microsoft Outlook address book.
- Easily keep track of all outbound faxes.

Perfect for Healthcare, Legal and IT Professionals

Whether you need to send a purchase order, a fax prescription, or a legal document, eFax Messenger 2.0 offers the most convenient, efficient and secure way to send fax documents.

Unlike a traditional community fax machine, which poses a high-risk to confidential customer or protected healthcare information, eFax Messenger enables you to send sensitive data from the privacy of your desktop computer without having to print, scan or physically sign a document.

eFax Messenger 2.0 – Updates and Enhancements

Create & Send a Fax

No need to launch a separate window—it is now built into your main application.

New Fax Ribbon

Subject and Attention fields; fax a copy to yourself; add a reference or client ID; add searchable tags, and more.

Fax Activity

View all of your fax activity in one convenient central location.

Log In

No need to remember your fax number - now you can conveniently log-in with your email address or fax number.

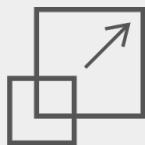

Electronic Signature

Upgrades include a timestamp option, as well as the ability to sign on-screen with a mouse or stylus, and import your own signature image, or type your signature with script-like fonts.

Keyword Search

New keyword search option allows you to search your stored documents by subject or tags.

Cover Pages

Five ready-made templates available or create or import your own custom cover pages.

Address Book

Easily view Recents and Favorites, create groups, and import/export your address book, including Microsoft Outlook.

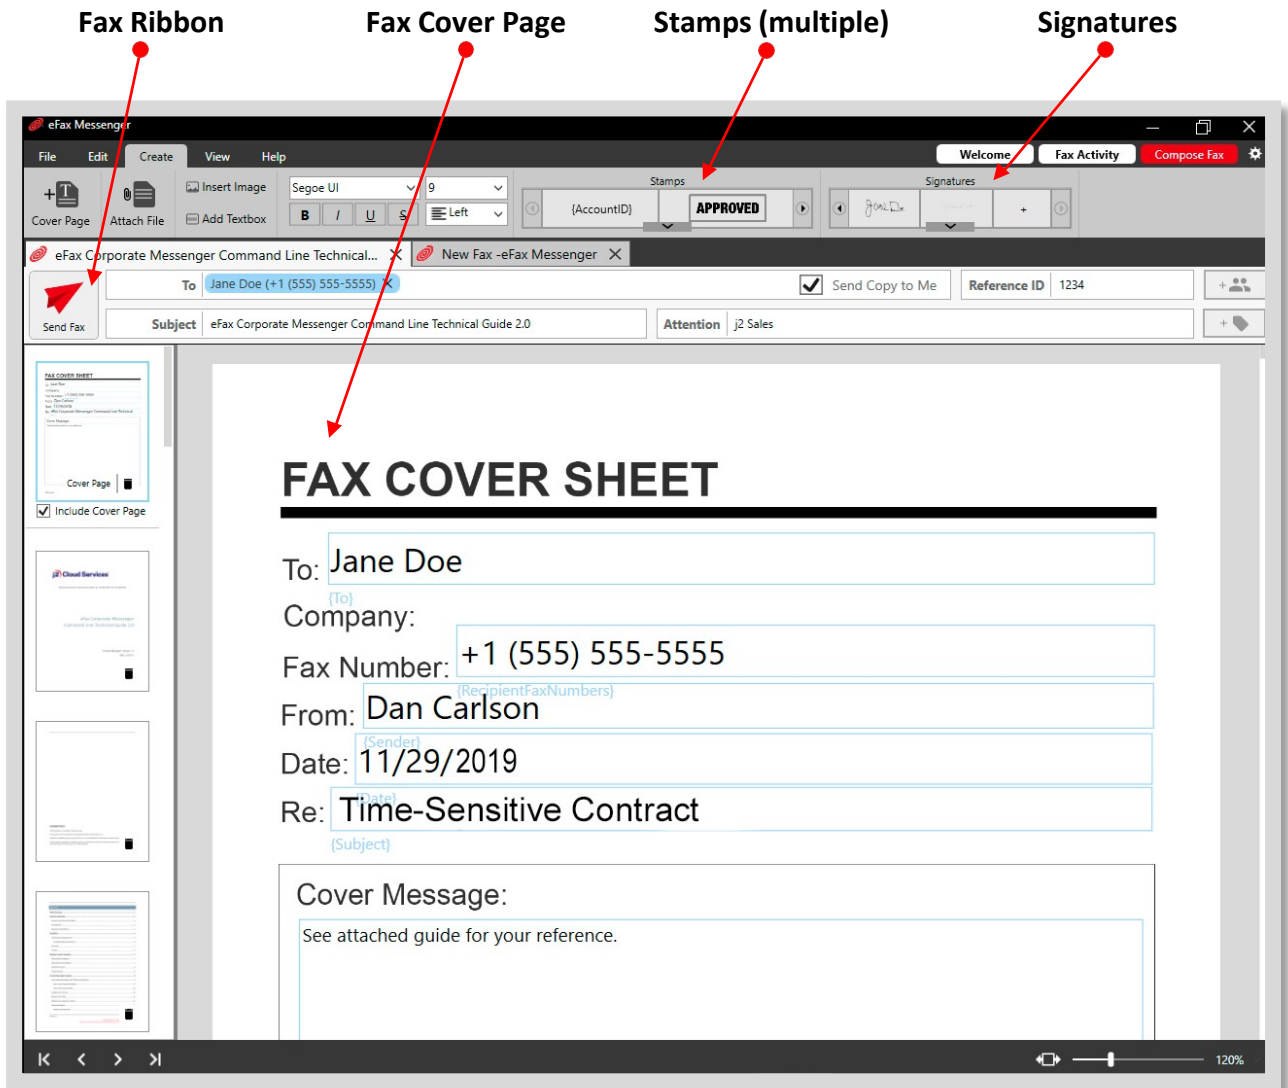

Geographic Region

Limit your fax sending to specific geographic regions. For example, routing faxes within the EU or Canada.

How it Works

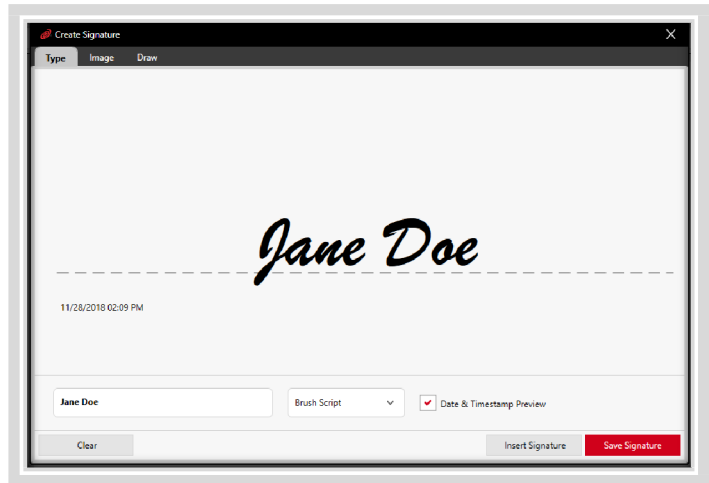

Sending a Fax with eFax Messenger 2.0

With the new eFax Messenger 2.0 print driver, you can now print from any application (Word, PowerPoint, Excel, etc.) that supports printing. It comes with 5 pre-made templates for your convenience or you can create/import your own custom cover pages.

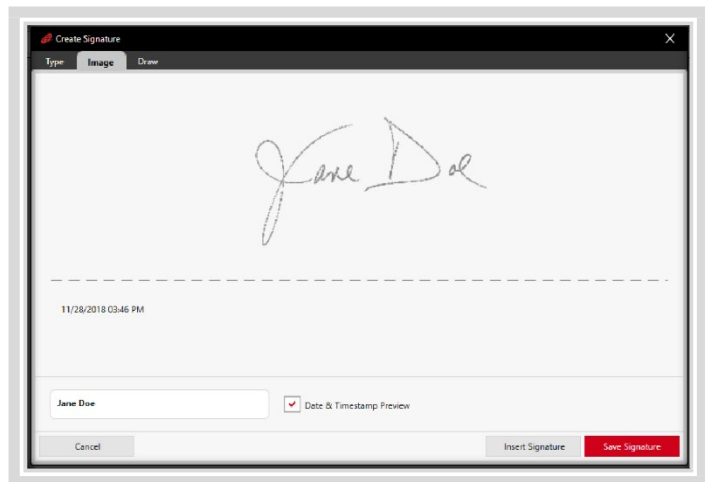

Adding an Electronic Signature

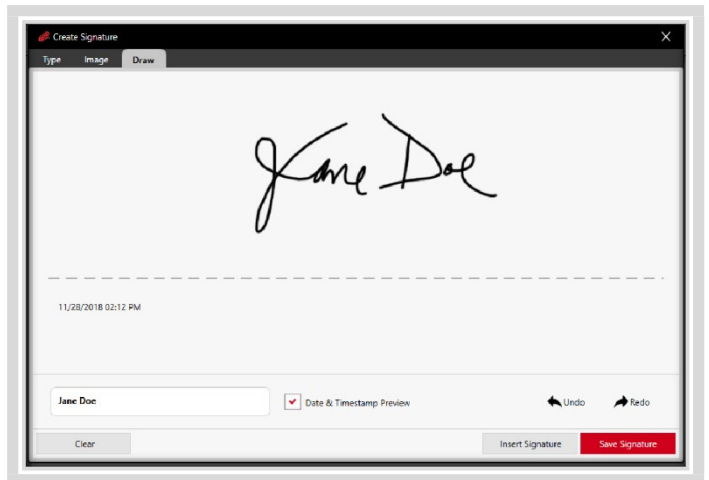

Type a signature

Import a signature

Draw a signature
